CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 1921.

LOCALITIES, POPULATION, AND OCCUPIED DWELLINGS.

NOTE.—Population and occupied dwelling figures are published in this Bulletin in respect to all localities in the Commonwealth where not less than twenty persons were enumerated at the Census of 4th April, 1921.

In the case of Urban Localities the names and boundaries used for Local Government purposes have been adopted, and the figures given represent, in every case, the number of persons and occupied dwellings enumerated within the Local Government boundaries. The names of all Urban Localities appear in heavy type.

No clearly defined boundaries are available for Localities in Rural districts, and the figures given represent the number of persons and occupied dwellings tabulated from the schedules of householders who returned their dwellings as belonging to a locality specified.

The name of the Local Government Area in which a locality is situated appears in the third column. Where a locality is in a part of a State not incorporated under Local Government, the name of the Commonwealth Electoral Subdivision has been inserted in *italics* to indicate its approximate position. In the Northern Territory the corresponding area is the Police District, which also is shown in *italics*.

Where in any one State an Urban Local Government Area bears the same name as a Rural Local Government Area, the following letters have been employed for the purpose of identification.

	Urban.	Rural.	Urban.	Rural.
New South Wales ..	M. (Municipality.)	S. (Shire).	South Australia ..	C. (Corporation). .. D.C. (District Council).
